

Experience

The Moyes Eye Center (MEC) residency offers exposure to several ophthalmological sub-specialties. Rotations through cornea, oculoplastic, and glaucoma clinics allow residents to treat and manage advanced ocular disease with oversight from a group of experienced and skilled clinicians.

Previous Resident Experiences Include Management of:

- Fungal/parasitic keratitis
- Advanced glaucoma
- Blepharoptosis
- Corneal dystrophies
- Anterior uveitis
- Keratoconus
- Ocular malignancies

Residents will manage pre- and post-operative care for many surgical procedures including LASIK, PRK, cataract extraction, blepharoplasty, MIGS, amongst many others.

Practice Mission:

Our practice mission is simple: to be a premier eye care center in Kansas City and throughout the Midwest. Our practice is dedicated to providing exceptional service from experienced doctors and staff using proven technology.

Program Mission:

Our residency in ocular disease will provide graduate optometrists with advanced competency in the treatment of ocular disease and co-management of ocular surgery.

Program Details/Benefit:

Location: Kansas City Metro Area

Stipend: \$41,000

Length of Program: 53 weeks

Additional Benefits: Health insurance according to MEC group policy benefits. Travel and continuing education expenses of \$1000. Time off for major holidays plus 10 days of additional paid leave.

MOYES EYE CENTER
— Joy Through Sight —

**Moyes Eye Center
Residency in Ocular Disease
With Emphasis on Refractive
and Ocular Surgery**

Exam Lanes

Residents can sharpen their clinical skills in our fully equipped exam lanes. All MEC offices have an extensive selection of modern diagnostic devices.

Downtown Kansas City offers a rich night life with jazz and art districts that never underdeliver. The Nelson-Atkins Museum of Art houses a world class collection of art.

LASIK Surgery Suite

Our refractive surgery suite houses some of the most advanced refractive surgical equipment on the market.

North Point

North Point Surgical Center is housed adjacent to MEC and offers residents the opportunity to observe ocular surgery in many sub-specialty settings.

Kansas City

Having proudly served the Kansas City area for 20 years, our connection to this city and the region is heartfelt and deeply rooted. Located on the border of both Missouri and Kansas, Kansas City is a gem of the Midwest.
