BUSINESS

Enabling Change for Impact

[A glocal leader enabling enterprises to steer sustainability outcomes]

OUR MISSION

- Offer high-quality, affordable and accessible capacity building, advisory, and research insights
- Drive balanced stakeholder dialogue and perspectives that are contextually informed and globally relevant
- Foster sustainable and collaborative (sustainability) initiatives with multiple stakeholders, particularly SMEs, smallholders, new age businesses and gig economy with continued emphasis on large businesses
- Build an enabling ecosystem with stakeholders representing finance, technology, policy and skilling
- Strengthen market linkages and enhance opportunities for sustainable enterprises

OUR THEMATIC AREAS

CRB organises its work across three thematic areas, with sustainable consumption and sustainable finance as cross-cutting issues across all programmes

CIRCULAR ECONOMY

- Circular Apparel and Textiles
- Food Loss and Waste
- Circular plastics

INCLUSIVE GROWTH

- Gender and Women's Economic Empowerment
- Decent Work
- UN Guiding Principles on Business and Human Rights
- Just Transition

ENVIRONMENT & CLIMATE ACTION

- Deforestation free supply chains
- Regenerative Agriculture
- Business and Biodiversity (Nature based Solutions)
- SMEs and Decarbonisation

Resources

operating **verticals**

KNOWLEDGE

- Evidence-based awareness generation and capacity building of multiple stakeholders
- Advisory services/support to industry stakeholders on thematic areas, through specific tools, frameworks and other knowledge products
- Exploration and dissemination of 'good practices'; and ground-level challenges and opportunities

ENABLING ENVIRONMENT

- Evidence-based policy engagement (local, state, national and international) to inform relevant policies, schemes, administrative actions
- Engage consumers and market actors to provide rewards and recognition to sustainable business
- Engage technology providers, financial sector, and skilling to support the transition

COLLABORATION

- Foster innovative and unusual partnerships
- Facilitate dialogues and multiple stakeholder informed collective actions
- At the international level, foster North-South and South-South dialogues and collaboration

scope of interventions

CLUSTER

SME interventions driven at cluster level for aggregation, collective action and scale - groups of firms in specific sectors and related economic actors

VALUE CHAIN

Integrating sustainability across all nodes of the value chain — from conception through production, delivery and disposal

LANDSCAPE

Targeting landscapes to understand complex relationships between biotic and abiotic systems, pursuing positive impacts for nature and people

INSTITUTIONS

Enabling academic institutions, industry associations, youth organisations, enterprises and city planners to become sustainability champions

our impact areas

SUSTAINABLE CONSUMPTION

Supporting enterprises that cater to the needs of informed consumers/buyers

RESOURCE EFFICIENCY

Building skills and competence for resource (material) efficiency strategy through circular economy initiatives

DECENT WORK

Promoting the principles of decent work, that include: Employment creation; Social protection; Rights at work; and social dialogue

BIODIVERSITY CONSERVATION

Supporting businesses' commitment and translating it into action to drive biodiversity conservation (restoration and regeneration), including through nature-based solutions

DECARBONISATION

Reduction and elimination of GHG emissions from businesses/industry/agriculture, including SMEs and small producers; done in a just and inclusive manner
